

TURF

General Information

GENERAL INFORMATION

INJECTOR is designed to promote better absorption of irrigation water into the soil.

INJECTOR enhances the infiltration and penetration of water whether applied with conventional spray rig equipment, or through the irrigation system itself.

Limitations, Restrictions, and Exceptions

TURF:

RECOMMENDATIONS FOR USE WITH INJECTION:

Inject at a rate of 1 quart per acre. Apply in a minimum of 50 gallons per acre. Repeat application each month or as required during the growing season.
