

STRAWBERRY FIELD GROWN

General Information

GENERAL INFORMATION

Disclaimer: Always refer to the label on the product before using Helena or any other product.

SUPER ZINC FL is a formulated treatment for zinc deficiencies in a wide range of crops. This product is recommended for use as a supplement to a well-balanced fertilizer program only. SUPER ZINC FL may be applied with dormant or delayed dormant oil spray. This product may be applied using a variety of agricultural application equipment and techniques. It is not intended nor implied to be a substitute for sound soil fertilization and good conventional cultural practices. Thorough coverage of foliage is necessary for best results. When used at standard application and dilution rates, SUPER ZINC FL is compatible with a wide range of agrichemicals. For additional information on product or programs or if you are unfamiliar with any of the application methods, contact your local Helena representative or authorized Helena dealer.

Avoid application under extremes of climate, e.g. rapid drying conditions, extremely slow drying conditions, frost, rain, or when frost or rain are anticipated.

Limitations, Restrictions, and Exceptions

One application of ½ pint/acre at green bud followed by two applications of ¼ pint/acre applied at white bud and post-harvest regrowth.
