

GARDEN & LANDSCAPE - BEDS (FLOWERS, SHRUBS)

General Information

GENERAL INFORMATION

PROMATE SCATTER is a blend of nonionic wetting agents impregnated onto an inert organic carrier. This results in a dry granular formulation that provides equal performance as liquid products when used at recommended rates. PROMATE SCATTER can be applied safely at full rates in both spring and summer.

PROMATE SCATTER is particularly useful for treating small areas of difficult to wet soil. PROMATE SCATTER also contains agents to prevent foaming problems.

Limitations, Restrictions, and Exceptions

GARDEN & LANDSCAPE

Beds (Flowers, Shrubs): PROMATE SCATTER 3 lbs./1000 square feet every 3 to 4 months.
