

## **SPECIALTY USES NON CROP AREAS (FIELD BORDERS, FENCEROWS, ROADSIDES, DITCHBANKS, BORROW PITS) - DRY METHOD**

General Information

### GENERAL INFORMATION

ACEPHATE 75 SP is an insecticide for control of pests on selected agricultural crops and in certain non-crop areas. The active ingredient in ACEPHATE 75 SP is acephate, a water soluble insecticide readily absorbed by plant roots and foliage to give systemic control of feeding insects. Insect pests are generally controlled more effectively by ACEPHATE 75 SP through ingestion than by contact. Application of ACEPHATE 75 SP to maintain control should be repeated only as directed.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THE LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.

NOTE: This product is sold by weight and package is full when packed, but due to the product's nature, settling is likely to occur.

Limitations, Restrictions, and Exceptions

Mound Treatment:

Dry Method: Evenly distribute 1 to 2 teaspoons over the mound.

### FURTHER USE INSTRUCTIONS

For best results apply the material in the early morning or late afternoon when the ants are most active.

Applications made under prolonged hot and dry conditions may be ineffective due to the location of the ants deep within the nest.

Grass in treated area may be injured.

Do not treat mound more than once per season.
