

# **OUTDOOR FLORAL CROPS AND GROUND COVERS - ROSES AND BOSTON IVY**

## General Information

### GENERAL INFORMATION

ACEPHATE 75 SP is an insecticide for control of pests on selected agricultural crops and in certain non-crop areas. The active ingredient in ACEPHATE 75 SP is acephate, a water soluble insecticide readily absorbed by plant roots and foliage to give systemic control of feeding insects. Insect pests are generally controlled more effectively by ACEPHATE 75 SP through ingestion than by contact. Application of ACEPHATE 75 SP to maintain control should be repeated only as directed.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THE LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

Do not apply under conditions involving possible drift to food, forage or other plantings that might be damaged or the crops thereof rendered unfit for sale, use or consumption.

NOTE: This product is sold by weight and package is full when packed, but due to the product's nature, settling is likely to occur.

### Limitations, Restrictions, and Exceptions

### TIME OF APPLICATION

Repeat applications at 2 week intervals may be necessary.

### RECOMMENDED APPLICATION

Apply the specified amount of ACEPHATE 75 SP in 100 gals. water with a hydraulic sprayer as a full coverage spray. Multiple applications may cause slight tip burn or marginal leaf necrosis on some varieties. Test on a few plants to determine varietal susceptibility.
