

STARTER FERTILIZER

General Information

General Information

BIO-POWER is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops. BIO-POWER can be used with a starter fertilizer, infurrow, transplant water, drip or overhead irrigation/ soil drench or foliar treatment for any crop. BIO-POWER is water- soluble and will be taken up by plant roots, seed and foliage without phytotoxicity when used as directed. BIO-POWER is particularly effective as a fertilizer supplement for stressed crops.

Limitations, Restrictions, and Exceptions

STARTER FERTILIZER: Apply 3 to 6 pints of BIO-POWER per acre mixed in with the starter fertilizer solution.
