

## **FOLIAR SPRAY - TREE CROPS**

### General Information

### General Information

CHE-LA with Magnesium is a foliar and soil applied micronutrient and is non-phytotoxic when used as directed. CHE-LA with Magnesium is an effective dispersing agent when applied with other foliar spray chemicals.

CHE-LA with Magnesium is compatible with most insecticides, herbicides, fungicides and foliar nutrients. It may be incorporated into existing spray programs. Add micronutrients to water before adding pesticides. CHE-LA with Magnesium may be used on the following crops: Alfalfa, Almonds, Avocados, Apples, Barley, All Beans, Broccoli, Cabbage, Carrots, cauliflower, Celery, Citrus, Corn, Grapes, Lettuce, Melons, Milo, Nectarines, Pears, Peaches, Peanuts, Pecans, Peppers, Potatoes, Rice, Sorghum, Soybeans, Strawberries, Sugar beets, Sugar cane, Sweet corn, Tomatoes, Turnips, Walnuts, Watermelons, Wheat and most other crops.

### Limitations, Restrictions, and Exceptions

### Foliar Spray

Tree Crops: Apply 1 gallon CHE-LA with Magnesium in 500 gallons of dilute spray. If concentrated spray is used, increase the concentration in direct proportion to dilution. If tree crops are sprayed several times a year, the above amount can be split into more numerous applications. Split applications over the year are considered more beneficial than single applications.
