

SUGAR BEET MICRO RATES

General Information

GENERAL INFORMATION:

QUAD 7 Spray Adjuvant is a multi-component product designed to optimize retention and absorption of many herbicides. QUAD 7 may enhance performance of other post-emergence products requiring non-ionic surfactant and fertilizer. QUAD 7 was designed specifically to enhance Accent, Basis, Steadfast, Pursuit, Raptor and other herbicides. Do not use with Assert.

The addition of nitrogen based fertilizers (such as 28% N, 32% N, or 10-34-0) or ammonium sulfate are generally not required with QUAD 7. Follow herbicide label directions.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE:

Sugar beet Micro Rates: Add QUAD 7 Spray Adjuvant first to clean water in spray tank when using with sugar beet micro rates and follow specific tank filling and mixing information provided on the herbicide labels. Use QUAD 7 at 1% v/v + 1% v/v MSO Concentrate with Leci-Tech.
