

PONDS, LAKES, FOUNTAINS AND LAGOONS APPLICATION

General Information

Treats 4 acres of water 4-6 feet deep Biodegradable Non-Toxic

General Information

The use of BRANDT BLUE LAGOON SS adds a natural beauty to ponds, lakes, fountains and lagoons, coloring them a natural, beautiful blue. When used as directed, this product will not stain or harm fish or wildlife.

BRANDT BLUE LAGOON SS is a Bird Blocker formulation designed to darken water sufficiently to protect against fish poaching in aquacultural environments.

When treating ponds, allow this product to fully disperse before fishing, swimming or irrigating.

Directions for Use

Apply at the rate of 1 quart per 1 surface acre of water 4-6 feet deep. If a deeper color is desired, use additional product.

After measuring the pond or lake, and calculating the amount needed, add approximately half that dosage to several parts of the lake or pond, to ensure even dispersion. After half of the dosage is incorporated, add the balance of the colorant until the desired color is achieved.
