

## **PONDS, LAKES AND LAGOONS**

### General Information

The use of LOCH NESS SS adds a natural beauty to ponds, lakes and lagoons, aesthetically improving their appearance. When applied at the recommended rates, LOCH NESS SS will not stain birds or fish, and is harmless to humans as well as wildlife.

LOCH NESS SS is a Bird Blocker formulation designed to darken water sufficiently to protect against fish “poaching” in aquacultural environments.

LOCH NESS SS will not disrupt fishing, swimming or irrigation once product has dispersed. However, do not swim, fish, or irrigate from ponds treated with LOCH NESS SS until the product has thoroughly dispersed.

### Limitations, Restrictions, and Exceptions

If a deeper color is desired, use additional LOCH NESS SS. Product should be added to lakes or ponds from several different locations to insure even dispersion. Wear rubber gloves when applying to protect hands from staining.
