

WATER APPLICATION

General Information

GENERAL INFORMATION

The use of MIDNIGHT BLUE SS adds a natural beauty to ponds, lakes, fountains and lagoons, coloring them a natural, beautiful blue/black deep water hue. When applied at the recommended rates, MIDNIGHT BLUE SS will not stain birds or fish and is harmless to humans as well as wildlife.

MIDNIGHT BLUE SS will not disrupt fishing, swimming or irrigation once the product has dispersed. However, do not swim, fish or irrigate from ponds treated with MIDNIGHT BLUE SS until the product has thoroughly dispersed.

The range of rates can accomplish coloration from moderate to total black. Adjust rate as needed.

After measuring the pond or lake, and calculating the amount needed, add approximately half that dosage to several parts of the lake or pond, to insure even dispersion. After half of the dosage is incorporated, add the balance of the colorant until the desired color is achieved.
