

# CELERY

## General Information

NURTURE CRN 30-0-0 is a 70% controlled released nitrogen that is engineered on four unique release characteristics to obtain constant growth pattern of the plants. NURTURE CRN 30-0-0 releases the proper amount of nitrogen to the plant to avoid nitrates losses from the soil. This product utilizes the micro-organisms in the soil to release the nitrogen at the proper rate for the plants. There are minimum losses of NO<sub>3</sub> and NH<sub>3</sub> from the soil, which reduces the total nitrogen needs for the crop without sacrificing performance, yield and health of the plant. Addition of NURTURE CRN 30-0-0 will improve the root development and overall plant health.

Refer to the label for the amount of nitrogen per liquid oz applications.

## Limitations, Restrictions, and Exceptions

Repeat at 2 gals./acre in 3 intervals until 3 weeks prior to harvest, using 7-8 gallons total over crop.
