

## SEED CROPS

### General Information

NURTURE CRN 30-0-0 is a 70% controlled released nitrogen that is engineered on four unique release characteristics to obtain constant growth pattern of the plants. NURTURE CRN 30-0-0 releases the proper amount of nitrogen to the plant to avoid nitrates losses from the soil. This product utilizes the micro-organisms in the soil to release the nitrogen at the proper rate for the plants. There are minimum losses of  $\text{NO}_3$  and  $\text{NH}_3$  from the soil, which reduces the total nitrogen needs for the crop without sacrificing performance, yield and health of the plant. Addition of NURTURE CRN 30-0-0 will improve the root development and overall plant health.

Refer to the label for the amount of nitrogen per liquid oz applications.

### Limitations, Restrictions, and Exceptions

1.5-2 gals./acre at early bloom. 3-4 weeks later apply 2 gals/acre. 30-60 days prior to harvest apply 2 gals/acre to fill out seed.
