

ALMONDS, APRICOTS, CHERRIES, ETC.

General Information

NURTURE CRN 30-0-0 is a 70% controlled released nitrogen that is engineered on four unique release characteristics to obtain constant growth pattern of the plants. NURTURE CRN 30-0-0 releases the proper amount of nitrogen to the plant to avoid nitrates losses from the soil. This product utilizes the micro-organisms in the soil to release the nitrogen at the proper rate for the plants. There are minimum losses of NO₃ and NH₃ from the soil, which reduces the total nitrogen needs for the crop without sacrificing performance, yield and health of the plant. Addition of NURTURE CRN 30-0-0 will improve the root development and overall plant health.

Refer to the label for the amount of nitrogen per liquid oz applications.

Limitations, Restrictions, and Exceptions

To increase flower initiation for increased yields of fruit and nuts, apply with adequate water for complete coverage.
