

BEANS, CABBAGE, CANTALOUPE ETC.

General Information

General Recommendations

PLANT START is a highly concentrated liquid plant food formulated with compounds containing plant hormone precursors, natural plant amino acids, plant vitamins and anti-stress substances. This combination promotes early growth and healthy root systems which will establish the plant quicker and in turn promote vigorous top growth. This product is recommended to be used as a supplement to a well balanced fertilizer program and is not meant to be a substitute for sound and good cultural practices.
