

SOIL APPLICATION - ELEMENTAL COPPER REQUIRED BY SOIL / LEAF TEST (1 - 10 LBS)

General Information

GENERAL INFORMATION

KEYLATE Zinc is formulated to be used in fertilizer solutions. Broadcast or row applications are acceptable, although greater efficiency may be expected from row applications. Micronutrient deficiencies usually occur when plants are small; therefore, micronutrients should be added to the fertilizer at or before planting.

Limitations, Restrictions, and Exceptions

SOIL APPLICATION - ELEMENTAL COPPER REQUIRED BY SOIL / LEAF TEST (1 - 10 LBS):

KEYLATE Zinc can be incorporated in liquid fertilizer or applied separately.

Refer to table in the label for specific application rate for elemental copper required by soil or leaf test.
