

LAWNS AND ORNAMENTAL TURF - (RHIZOCTONIA BROWN PATCH)

General Information

GENERAL INFORMATION:

TM + CTN E-Pro 66.6 WDG Fungicide is a formulation of two chemicals that provides broad spectrum contact and systemic disease control on golf courses and ornamental turfgrass as well as on ornamental plants, shrubs and trees when used according to the directions on the label.

Use Precautions

- Use of this product on home lawns is prohibited.
- Do NOT graze treated areas.
- Do NOT feed clippings to livestock or poultry.

General Mixing and Application Instructions

1. Add the recommended amount of TM + CTN E-Pro 66.6 WDG Fungicide to the spray tank while filling with water.
2. Maintain continuous agitation when filling the spray tank and during spray operations.
3. For best disease control results, thorough and uniform coverage of the plant surfaces is essential.

NOTE: Tank mixing this product with surfactants, fertilizers, and / or other pesticides is not recommended unless prior use has shown the combination to be physically compatible, effective and non-injurious under your conditions of use.

- Do NOT apply this product through any type of irrigation system.

- Do NOT apply within 150 ft. (for air-blast) or 25 ft (for ground applications) of marine / estuarine water bodies unless there is an untreated buffer area of that width between the area to be treated and the body of water.
