

## **SOIL APPLICATION: WHEN LEAF AND SOIL TESTS ARE NOT AVAILABLE - MAINTENANCE APPLICATION**

### General Information

#### GENERAL INFORMATION

White Label Field Crop Mix is a foliar or soil- applied micronutrient and is non-phytotoxic when used as directed. White Label Field Crop Mix is completely available and absorbed by the leaf surface or the root system because of the phenolic acid complex. White Label Field Crop Mix is an excellent acidification agent for lowering high pH in spray tank water to decrease the hydrolysis of most pesticides. White Label Field Crop Mix is an effective dispersing agent when applied with other foliar spray chemicals. White Label Field Crop Mix is recommended on the following crops: Alfalfa, Almonds, Avocados, Apples, Barley, All beans, Broccoli, Cabbage, Cauliflower, Carrots, Celery, Citrus, Corn, Grapes, Lettuce, Milo, Melons, Nectarines, Rice, Pears, Peaches, Pecans, Peppers, Plums, Potatoes, Peanuts, Sorghum, Soybeans, Sugar beets, Sweet corn, Sugar cane, Strawberries, Tomatoes, Turnips, Walnuts, Watermelons, Wheat and most other crops.

**CAUTION:** This product contains boron and should be used only according to label directions.

**Liquid Fertilizer:** Mix White Label Field Crop Mix with liquid fertilizer agitating to thoroughly disperse the trace elements. This can be achieved by adding the product to the mixing batch tank or inducting through a pump. When mixing in batch tank, add product to water nitrogen solution before adding phosphate material. Stoller Enterprises, Inc. also manufactures a line of chelates for high-analysis fertilizer. White Label Field Crop Mix is compatible with most insecticides, fungicides, foliar nutrients and herbicides. It can be applied in existing spray programs.

White Label Field Crop Mix is compatible most waterdispersed herbicides. White Label Field Crop Mix is an excellent acidification agent for alkaline water. High pH water will break down many insecticides such as Sevin, Dylox, Ethyl Parathion, Malathion, Methyl Parathion and other organ phosphate insecticides, decreasing the effectiveness of the pesticides. White Label Field Crop Mix is manufactured to rigid controls at the highest possible concentration for effective usage. Any residue in

this pail is water soluble. Rinse the pail with water and add solution to spray tank.
