

FAIRWAYS AND LAWNS

General Information

GENERAL INFORMATION

LINK 11-0-11 is a prescription formulated foliar fertilizer powered by Nitamin Steady-Delivery nitrogen. LINK 11-0-11 is a low salt index, low biuret foliar nutrient providing efficient plant uptake, rapid plant response and excellent plant safety.

LINK 11-0-11 is designed primarily for foliar applications to prevent or correct nitrogen, potash, sulfur, copper, iron, manganese, molybdenum, and zinc deficiencies in a wide range of agronomic and ornamental plants. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality.

Application of LINK 11-0-11 is a means of obtaining a quick response to needed elements. Foliar applications of LINK 11-0-11 may be particularly beneficial during periods of peak nutrient demand, for crops grown on soils having poor nutrient availability or to crops suffering from a weakened root system. LINK 11-0-11 should be used as part of a comprehensive Total Nutrition System for optimizing plant growth, development, yield, and quality.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING.

AS A FOLIAR SPRAY: For best results, apply early in the morning or late evening. Do not apply during hot, dry weather or periods of drought. To reduce droplet size and enhance uniform wetting of surfaces, a surfactant may be used for all foliar applications.

Limitations, Restrictions, and Exceptions

Repeat as needed.
