

AS A STAND-ALONE

General Information

GENERAL INFORMATION

LINK 4 Iron SP is a unique, fully liquifiable (99.998%) homogenous crystalline micronutrient. This material is fully compatible with many known fungicides, herbicides, growth regulators, surfactants and most soluble fertilizers. Always jar test new combinations for compatibility prior to field mixing.

LINK 4 Iron SP is recommended for use on golf courses, sod farms, sport fields, home lawns and landscapes, trees, shrubs, fruit trees, annual flora, vegetables and many other specialty crops.

LINK 4 Iron SP should be used as part of a comprehensive Total Nutrition System® for optimizing plant growth, development, aesthetics and quality.

Limitations, Restrictions, and Exceptions

Initial application is 10 lbs. per acre with subsequent applications of 5 lbs. per acre every 3 to 4 weeks to maintain color and vibrancy.
