

POTATOES

General Information

GENERAL DIRECTIONS

GAINER products are generally compatible with pesticides and other fertilizers. Determine compatibility with a jar test before mixing products.

CROPS NOT LISTED: Apply according to directions of your local agricultural professional to crops where the addition of phosphorus or potassium would be beneficial.

NOTE: This product is not recommended for use with copper or tin fungicides. These mixtures can be phytotoxic and damage the crop.

Limitations, Restrictions, and Exceptions

Subsequent applications at 2 to 3 week intervals.
