

VINE CROPS - AIR APPLICATIONS

General Information

GAINER is generally compatible with pesticides and other fertilizers. Determine compatibility with a jar test before mixing products.

COMPATIBILITY: GAINER is compatible with most commonly used pesticides. Do not use with lead arsenate, hydrated lime, lime sulfur, or other strongly alkaline materials. Do not use with amine form of 2,4-D or with dicamba (e.g. Banvel). In all cases, it is recommended that a jar test be made to determine compatibility of GAINER with other materials before proceeding with high volume mixing.

Limitations, Restrictions, and Exceptions

Air Application: use 5 to 10 lbs. per acre in no less than 10 gallons of water.
