

AIR APPLICATIONS

General Information

RECOMMENDATIONS

Crops: Liquid Magnesium 4% can be used on any agricultural crop where a sulfur, and magnesium deficiency exists or where added soluble magnesium would be beneficial.

Compatibility: Liquid Magnesium 4% is formulated to mix with most commonly used insecticides and fungicides. However, a jar test for compatibility should be performed prior to application. This product is not recommended for use with copper or tin fungicides.

Limitations, Restrictions, and Exceptions

AIR APPLICATIONS:

MAXIMUM concentration of 1 quart per gallon of spray may be used, but larger quantities of water will improve coverage.
