

FIELD CROPS - BEANS (FOLIAGE)

General Information

GENERAL INFORMATION

This product is recommended to prevent or correct iron deficiencies. This should be used on the basis of a soil and/or tissue analysis.

ULTRA-CHE Iron 4.5% HEDTA is generally compatible with pesticides and fertilizer solutions. It is always advisable to test for compatibility on a small scale before tank mixing product.

Limitations, Restrictions, and Exceptions

Repeat application at regular intervals throughout the growing season where deficiencies are known to occur. Application of this product directly on the seed has shown to sometimes impact germination.
