

COTTON - FOLIAGE

General Information

GENERAL INFORMATION

This product is recommended to prevent or correct iron deficiencies. This should be used on the basis of a soil and/or tissue analysis.

ULTRA-CHE Iron 4.5% HEDTA is generally compatible with pesticides and fertilizer solutions. It is always advisable to test for compatibility on a small scale before tank mixing product.

Limitations, Restrictions, and Exceptions

CAUTION: Foliar applications may injure young cotton plants under 6 inches high, especially if applied during hot, dry daytime conditions.
