

HIGH APPLICATION RATE

General Information

DIRECTIONS FOR USE

Apply only as directed. Apply during the growing season. For use where a more controlled release nitrogen feeding and a high potassium fertilization are desired.

This product should be used when a soil test has been conducted, within the last 36 months, and the test indicates that the soil is deficient in plant available phosphorous or the intended use is for establishing grass or repairing damaged grass during the growing season in which the grass is established.

For all applications:

- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles into the turf canopy.
- Do not collect clippings for at least one mowing following application to avoid particle pick-up.

Cool Season Grasses:

- Apply at the MEDIUM RATE during the growing season.
- When high temperatures (85°F or above) are anticipated, water in immediately after applying.
- Exception: Apply at the LIGHT RATE during periods of high temperatures.

Warm Season Grasses:

- Apply at the HIGH RATE during the growing season. Water in.
- Apply at the LOW RATE when temperatures are above 85°F.

Note: This product contains the micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. DO NOT WASH OFF WITH WATER.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.

Limitations, Restrictions, and Exceptions

Recent research has shown that well- maintained turf is an effective environmental buffer that prevents pollutants from entering our natural water bodies. To help protect these natural resources, avoid applying product to sidewalks, driveways, roadways, and other impervious surfaces. Sweep any misplaced granules back onto the area you are treating immediately after application, since storm drains often empty directly to nearby waterways.

For all applications:

- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles into the turf canopy.
- Do not collect clippings for at least one mowing following application to avoid particle pick-up.
