

HIGH APPLICATION RATE

General Information

FEATURES & USE TIPS:

- 75% of the total nitrogen is treated with Nutrisphere-N Nitrogen Fertilizer Manager
- NutriSphere-N is a proprietary nitrogen management tool based on a proprietary maleic-itaconic copolymer. It has been shown to prolong desirable turf color up to eight weeks.
- Includes iron for deep greening
- SGN 215 for use on fairways, roughs and other turf areas.
- Contains NutriSphere-N
- Contains iron for improved turf color

Note: This product contains the micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. **DO NOT WASH OFF WITH WATER.**

Limitations, Restrictions, and Exceptions

For all applications:

- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles into the turf canopy.
- Do not collect clippings for at least one mowing following application to avoid particle pick-up.

Cool Season Grasses:

- Apply at the LOW or MEDIUM RATE.
- Apply at the LIGHT RATE when temperatures exceed 85°F.

Warm Season Grasses:

- Apply at the LOW to HIGH RATE every 4-6 weeks during the period of active growth.
