

HIGH RATE APPLICATION

General Information

DIRECTIONS FOR USE

Apply only as directed. Apply during the growing season.

For all applications:

- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles into the turf canopy.
- Do not collect clippings for at least one mowing following application to a void particle pick-up.

Cool Season Grasses:

- Apply at the LOW or MEDIUM RATE.
- Apply at the LIGHT RATE when temperatures exceed 85°F.

Warm Season Grasses:

- Apply at the LOW to HIGH RATE every 4-6 weeks during the period of active growth.

Nitrogen Notice: For those states with nitrogen application restrictions, including but not limited to, MD, NH, NJ and VA, do not apply more than 3.26 lbs of this product per 1,000 sq. ft.

Note: This product contains the micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. **DO NOT WASH OFF WITH WATER.**

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.

Limitations, Restrictions, and Exceptions

CLOSE-CUT TURF - HIGH RATE APPLICATION

Warm Season Grasses:

- Apply at the LOW to HIGH RATE every 4-6 weeks during the period of active growth.

Notice: This product contains the micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. Do not wash off with water.

Recent research has shown that well-maintained turf is an effective environmental buffer that prevents pollutants from entering our natural water bodies. To help protect these natural resources, avoid applying product to sidewalks, driveways, roadways, and other impervious surfaces. Sweep any misplaced granules back onto the area you are treating immediately after application, since storm drains often empty directly to nearby waterways.
