

LOW APPLICATION RATE

General Information

- Utilizes NS-54 polymer coated slow release nitrogen to provide uniform growth with extended nitrogen feeding.
- SGN 215

Limitations, Restrictions, and Exceptions

Recent research has shown that well- maintained turf is an effective environmental buffer that prevents pollutants from entering our natural water bodies. To help protect these natural resources, avoid applying product to sidewalks, driveways, roadways, and other impervious surfaces. Sweep any misplaced granules back onto the area you are treating immediately after application, since storm drains often empty directly to nearby waterways.

For all applications:

- Apply to dry foliage.
