

COOL SEASON GRASSES - LOW RATE

General Information

GENERAL INFORMATION

The Andersons Professional Turf Products 28-3-10 provides grass with nitrogen, phosphate and potash for maintaining strong, vigorous turf.

The nitrogen in this product is both readily and slowly available which makes this product excellent for applications throughout the growing season when the minimum soil temperatures are greater than 55°F to 60°F and not exceeding 85°F.

This product is dust free and free flowing. The uniform particle sizing assures easy and accurate applications.

Limitations, Restrictions, and Exceptions

For all applications:

- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles into the turf canopy.
- Do not collect clippings for at least one mowing following application to avoid particle pick-up.

Cool Season Grasses:

- Apply at the LOW RATE when temperatures exceed 85°F.
