

LOW RATE

General Information

GENERAL INFORMATION

The Andersons Professional Turf Products 30-3-6 turf fertilizer provides grass with nitrogen, phosphate and potash for maintaining strong, vigorous turf.

The nitrogen in this product is all readily available which makes this product excellent for spring or fall feedings or whenever a quick visual response is desired.

This product is dust free and free flowing. The uniform particle sizing assures easy and accurate applications.

WHEN AND HOW TO USE

In the spring, or as soon as weather and ground conditions permit, apply at the **MEDIUM RATE** every 6 - 8 weeks during the growing season for both cool and warm season grasses.

Exception: Apply at the **LOW RATE** when temperatures exceed 85°F.

To ensure that you have the best possible fertilization program, use fertilizers in conjunction with a soil and tissue test program operated by a state certified laboratory familiar with the soils of your region. Cooperative extension agents can provide the names of recommended labs in your area.

Apply only as directed.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.

Limitations, Restrictions, and Exceptions

WHEN AND HOW TO USE

In the spring, or as soon as weather and ground condition permit, apply at the **MEDIUM RATE** every 6-8 weeks during the growing season for both cool and warm
