

ORNAMENTALS

General Information

INFORMATION

Dyna-Flo 12•3•6 Plus is a complete foliar nutritional spray with amino acids and natural organic catalytic enzymes. The supplemental N•P•K aids in photosynthesis, enhances root development, better flowering, fruit set and quality. Dyna-Flo 12•3•6 Plus increases tolerance to temperature extremes. Humic acid promotes cell elongation.

Due to the nature of humic acid, it is advisable to shake well before each use.

DIRECTIONS FOR USE

Shake Well Before Each Use - Dyna-Flo 12•3•6 Plus will act as a buffering agent (lower water pH) if added to spray tank prior to adding other materials. For dilute ground application, use adequate water to ensure coverage.

Concentrate ground application: Use minimum 20 gallons water per acre. Air application: Apply specific rate in at least 5 gallons of water per acre. More water will give better coverage. The addition of a non-ionic surfactant will aid in more uniform coverage and uptake.

Limitations, Restrictions, and Exceptions

PRECAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation. Keep container capped when not in use. Do not contaminate feed, seed or water supplies. Keep away from children. NOTE: Avoid spraying on concrete or painted surfaces as staining may occur.
