

CROPS

General Information

PRODUCT INFORMATION

DYNA-Flo Humic Acid is a highly effective potassium humate for use in applications requiring root growth stimulation and promoting healthy soil under high stress growing conditions. This humate completely dissolves when added directly to fertilizers, micronutrients, or pesticides formulations of any pH. It allows the user to apply direct to tank mix, drip irrigation or acid soil applications unacceptable for conventional products.

Limitations, Restrictions, and Exceptions

APPLICATION RATES

Crops: Apply 3 quarts in 100 gallons of water per acre per application as needed.
