

# TREE , VINE, BERRY CROPS - STRAWBERRIES

## General Information

### GENERAL INFORMATION

CHALLENGE is designed to be used primarily for foliar application and for use on turf crops. It may be used as a starter fertilizer with seed or transplants. It may also be soil applied. CHALLENGE is intended to be a supplement to a regular fertilizer program. Rates on the label are for foliar application. May be applied by ground or air.

### Limitations, Restrictions, and Exceptions

Strawberries: Apply at 2-week intervals beginning at pre- bloom and continuing throughout the season.
