Limitations, Restrictions, and Exceptions

LAWNS

Information

Dominion Tree & Shrub kills white grubs, mole crickets, European crane fly larvae and other pests listed in the table below. Dominion Tree & Shrub forms a protective barrier in the soil which provides control of listed pests all season long. When applied early, Dominion Tree & Shrub kills grubs, mole crickets and European crane fly before they hatch and damage lawns.

Contact your County Extension Agent for the best dates to apply in your area. Dominion Tree & Shrub may be sprayed over soil or mulch. Remove weed barrier before applying.

Indication of Damage to Lawns

European crane fly larvae often cause damage by feeding on grass roots and disrupting the soil surface.

Mole crickets often cause extensive damage by tunneling through lawns. Some species also feed on roots. Tunneling uproots the grass so it easily dries out. Lawns turn yellow, become thin, weedy and can eventually die.

White grubs cause extensive damage to lawns by feeding on grass roots. Grass turns yellow, then brown and dies.

Grubs chew off roots so that the grass is easily pulled up in pieces in your hands. You can roll it back like a carpet to reveal the grubs. If patches of dead grass appeared in your lawn late last summer, check for grubs.

Application Instructions

Treat for grubs from the beginning of May to the end of October, or when first noticed.

Contact your State Agricultural Extension Service agents for additional recommendations for your area.

RESTRICTIONS: Do not exceed one application of Dominion Tree & Shrub per season for lawns.

RESTRICTIONS:

- Children and pets may re-enter the treated area after the spray has dried.
- Do not water lawn within one hour after applying.
- Do not apply Dominion Tree & Shrub to waterlogged areas
- For grub (larvae) control, 1/2 inch of rainfall or irrigations should occur within 24 hours after application. Thoroughly wet the lawn a few hours after application.
- For armyworm and cutworm control, do not irrigate treated areas within 24 hours after application of this product.
- Do not mow treated lawn until after adequate rainfall or irrigation has occurred.

Hand-Operated Sprayers

Including backpack, compression, knapsack or tank type sprayers and low pressure boom sprayers.

For lawns, mix 2 to 3 fl. oz. of Dominion Tree & Shrub per one (1.0) gallon of water for treating approximately 333 sq. ft. of lawn. Use the higher rate for heavier infestations of insect pests.
