

# **INTEGRATED PEST MANAGEMENT IN SCHOOLS**

## General Information

### PRODUCT INFORMATION

PIVOT 10 inhibits the typical development and ability of immature insects from reaching adulthood. PIVOT 10 use can limit insect reproduction by causing adult insect sterilization, reduced egg production, behavior modifications, deformed insects and death. PIVOT 10 may be used in an Integrated Pest Management (IPM) program to help in the prevention of insect resistance.

### PRECAUTIONS:

1. Do not use this product in or on electrical equipment due to possibility of shock hazard.
2. Do not wet carpet, draperies and furniture. **STAINING:** Before using PIVOT 10, test the spray solution in a hidden area before use. As with other products, some fibers or surfaces (such as vinyl siding) may be affected by an application of this, or any liquid product.
3. Before use in commercial or residential food areas, refer to the Food Handling Establishment section of the label.

Remove patients in hospital, nursing homes, or any rooms before treating. If application is done as a surface spray or crack and crevice application, patients may re-enter once the spray has dried. If application is a ULV Fog or space spray, patients may return to the room after it has been thoroughly ventilated.

4. In institutions (including libraries, sports facilities, etc.) applications may be made while the facility is in use, provided treatment is not made in the immediate area where people are present.

### APPLICATION INSTRUCTIONS

PIVOT 10 may be applied both indoors and outdoors as a general surface spray, ULV/fog or space spray application, spot treatment or crack and crevice application. Application may be made using power sprayers, hand pump sprayers, void

injectors, in carpet shampoo, using a paintbrush, roller, professional foam applicator, or similar device.

**SURFACE APPLICATIONS:** Diluted spray may be applied as a spot treatment, broadcast surface application or crack and crevice spray. Apply spray solution to areas where conditions support insect populations and reproduction.

Limitations, Restrictions, and Exceptions

## INTEGRATED PEST MANAGEMENT IN SCHOOLS

PIVOT 10 may be used in Schools and Day Care Facilities. Unless it is an emergency situation, applications should be performed when only maintenance staff are present and the building is otherwise unoccupied. Do not apply to classrooms while in use. Vacate rooms prior to treatment. If application is a surface spray, spot or crack and crevice application, re-entry may occur once the spray has dried. If application is a ULV Fog or space spray, re-entry may occur after the treated area has been thoroughly ventilated. Always consult Federal, State and Local governing bodies to understand any and all requirements prior to application.

Note: See label for the Rate Chart.
