

WASPS, HORNETS, YELLOW JACKETS, BEES OUTDOORS (0.50% DILUTION)

Limitations, Restrictions, and Exceptions

OUTDOOR PEST CONTROL:

For contact and residual spray, refer in the label for the mixing procedure with water.

For heavy infestations, use the 0.50% dilution. For lighter infestations and for maintenance purposes, use the 0.25% dilution. One gallon of finished spray is sufficient to treat 1580 linear feet with a 6 inch spray band.

WASPS, HORNETS, YELLOW JACKETS, BEES OUTDOORS (0.50% DILUTION)

Application should be made in late evening when insects are at rest. Aim spray at nest openings in ground, bushes, and in cracks and crevices which may harbor nests, saturating nest openings and contacting as many insects as possible.
