

HOSPITAL, VETERINARY CLINIC, COMMERCIAL AND INDUSTRIAL DISINFECTION

General Information

GENERAL INFORMATION

BioSentry BioQuat 20 Disinfectant is an efficient disinfectant and sanitizer of high germicidal potency. Recommended use solutions are odorless, non-corrosive to metal surfaces and are non-staining.

Fulfills the criteria Appendix F of the Grade A Pasteurized Milk Ordinance 1965 recommendations of the U.S. Public Health Service in waters up to 400 ppm of hardness calculated as CaCO₃ when tested by the A.O.A.C. Germicidal and Detergent Sanitizers Official Method.

DIRECTIONS FOR USE

This product is not to be used as a terminal sterilant / high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical devices prior to sterilization or high-level disinfection.

Limitations, Restrictions, and Exceptions

HOSPITAL, VETERINARY CLINIC, COMMERCIAL AND INDUSTRIAL DISINFECTION

(1 ounce per 2 gallons) (4 ml / liter). Use on floors, walls, bedframes, furnishings and bathroom fixtures. Suitable for disinfection of glass, smooth metal, glazed porcelain, plastic, finished wood, finished leather and similar non-porous, hard environmental surfaces.

Areas with light soils may be cleaned and disinfected in one step using a clean brush, mop or cloth. Apply a solution of one (1) ounce of this product in two (2) gallons (4 ml / liter) of water. Heavily soiled areas should be precleaned before

disinfection. Treated surfaces must be thoroughly wet and allowed to remain moist for at least 10 minutes for proper disinfection. Prepare fresh use solutions daily. Do not reuse solution. Discard solutions when they become soiled.

GENERAL FARM DISINFECTANT USES:

(1 ounce per 2 gallons) (4 ml / liter)

(a) Remove all livestock and feeds from premises, cars, trucks, coops or crates to be treated.

(b) Remove all litter, bedding and manure from floors, walls and surfaces of facilities traversed or occupied by animals.

(c) Empty all feeding devices and watering appliances.

(d) Clean all surfaces with a good detergent and rinse thoroughly.

(e) Saturate all surfaces with BioSentry BioQuat 20 Disinfectant diluted at one (1) ounce per two (2) gallons (4 ml / liter) of water using a brush, cloth, mop or mechanical spraying device. Immerse all halters, ropes and other types of equipment used in handling and restraining animals as well as forks, shovels, scrapers used in removing litter and manure. Treated surfaces must remain moist for at least 10 minutes for proper germicidal action.

(f) Ventilate buildings, trucks, coops and other closed spaces. Do not house livestock, or use equipment until treatment has thoroughly dried.

(g) Thoroughly scrub treated feeding and watering equipment with detergent and rinse with potable water before reuse
