

## **APPLICATION AND MIXING GUIDE**

### General Information

#### GENERAL INFORMATION

KickStand Zn 7 is compatible with polyphosphate and orthophosphate fertilizer solutions.

KickStand Zn 7 is a micronutrient solution containing 7% zinc. It is designed to correct deficiencies of zinc. KickStand Zn 7 can be applied in the soil to vegetables, fruits, row crops, deciduous fruit and nut trees, and commercial turf and ornamentals.

### Limitations, Restrictions, and Exceptions

#### APPLICATION AND MIXING GUIDE

Rate of application is 38 oz (1.2 qts) to 76 oz (2.4 qts) per acre. KickStand Zn 7 may be mixed directly into a fertilizer solution without pre-dilution of water. The timing of applications are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis. For specific use recommendations, consult your local Helena Chemical Company representative or your local agricultural extension agent.

KickStand Zn 7 may be applied by ground application. Use enough carrier for thorough uniform coverage of the soil.
