

NURSERY AND GREENHOUSE

General Information

COMPATIBILITY: TRACITE GREENHOUSE FOLIAR 20-20-20 is compatible with most pesticides commonly used on turf and ornamentals. CAUTION: Do not use with Dormant Oil, Lime Sulfur, Spray Lime, or highly alkaline spray materials. Add TRACITE GREENHOUSE FOLIAR 20-20-20 to the spray tank or pre-mix tank when it is about half full. Agitation in the tank is preferred to increase the speed of solubility. When extremely cold water is used, allow a few extra minutes for the product to completely dissolve before spraying.

Limitations, Restrictions, and Exceptions

NURSERY AND GREENHOUSE

Use at the rate of 5 to 10 lbs. per 100 gallons of water or per acre on plants, flower, shrubs and trees for direct spray to foliage and for transplanting work. For preparing transplant slurry, add $\frac{1}{4}$ lbs or $\frac{1}{2}$ standard cup of TRACITE GREENHOUSE FOLIAR 20-20-20 per 3 gallon bucket of puddled soil.
