

CATTLEYA ORCHIDS - LIQUID FEEDING PER 100 GALLONS OF WATER

General Information

COMPATIBILITY: TRACITE GREENHOUSE FOLIAR 20-20-20 is compatible with most pesticides commonly used on turf and ornamentals. CAUTION: Do not use with Dormant Oil, Lime Sulfur, Spray Lime, or highly alkaline spray materials. Add TRACITE GREENHOUSE FOLIAR 20-20-20 to the spray tank or pre-mix tank when it is about half full. Agitation in the tank is preferred to increase the speed of solubility. When extremely cold water is used, allow a few extra minutes for the product to completely dissolve before spraying.

Limitations, Restrictions, and Exceptions

CATTLEYA ORCHIDS - LIQUID FEEDING PER 100 GALLONS OF WATER

For liquid feeding of Cattleya Orchid in white fir, use the rates in the label in place of watering every 7 to 10 days.
