

## **SHAKE WELL BEFORE USING - ANTI-FOAM**

### General Information

### General Information

Anti-Foam is a fast, effective defoamer for use in suppressing foam. Controlling foam reduces filling time and lessens overflow waste. Anti-Foam improves spray performance.

The combination of effective ingredients allows for very fast knockdown of troublesome foam if it should occur in the spray tank.

### Limitations, Restrictions, and Exceptions

### Directions For Use

Shake well before using.

Anti-Foam should be added to the spray mixture before the pesticide or any additional surfactant is added. Agitation is recommended to aid in dispersion of the various components.

Add 1 to 2 fluid ounces of Anti-Foam per 100 gallons of spray mixture.

For recirculating sprayers add 4 fluid ounces per 100 gallons of spray mixture.

If foam has already occurred, add 6 fluid ounces of Anti-Foam per 100 gallons of spray mixture.
