

FOLIAR APPLICATIONS : FOR TREE AND VINE CROPS - MILD DEFICIENCY

General Information

GENERAL INFORMATION

MONTEREY ZBK is a premium, liquid formulation of zinc, boron, potash and nitrogen for general purpose plant nutrition of field, row, vegetable, vine and tree crops.

MONTEREY ZBK may be applied to the soil at planting, as a sidedress and in foliar sprays. Foliar sprays of MONTEREY ZBK are intended to complement good soil fertility programs by supplying nutrients directly to the foliage of crops during critical growth stages. It is not intended nor implied to be a substitute for sound soil fertilization and cultural practices.

Limitations, Restrictions, and Exceptions

FOLIAR APPLICATIONS: Thorough coverage and wetting are needed for optimum foliar spray results. Applications to actively growing plants produce the best results. **DO NOT** apply more than 1 quart MONTEREY ZBK per 5 gallons of finish spray. **DO NOT** apply to foliage when plants are suffering from moisture or heat stress.

For tree and vine crops, apply appropriate dose (from the table below) after bloom, then as needed in cover sprays. **DO NOT USE** on Golden Delicious Apples during slow drying conditions.

Dilute: 4 quarts/100 gallons of water.

Concentrate: 2-4 qts./40-100 gals. of water/acre.

Aerial: 1 quart/5-10 gallons of water/acre.
