

## **SOIL APPLICATION: ALL CROPS**

### General Information

#### General Information

BRANDT SMART B is specifically formulated for delivery of boron for all crops.

#### Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

#### Limitations, Restrictions, and Exceptions

#### SOIL APPLICATION: ALL CROPS

Use 1-3 quarts per acre.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.
