

FOLIAR APPLICATION: TREE AND VINE CROPS (EXCLUDING CITRUS) - AERIAL

General Information

General Information

BRANDT SEQUESTAR 7% Fe DTPA is a fully chelated, water soluble, powdered form of iron DTPA and is recommended for the prevention and correction of iron deficiency in crops. The preferred use is as a soil application to prevent the deficiency although it may also be used as a foliar spray to provide correction when a soil application is impractical.

Limitations, Restrictions, and Exceptions

Aerial Application: Apply 1/3 pound of BRANDT SEQUESTAR 7% Fe DTPA per acre in at least 10 gallons of water. For application timing and frequency, refer to appropriate foliar application recommendation.
