

## AIR OR GROUND

### General Information

### DIRECTIONS FOR USE

ULTRA 90-NF is a non-ionic surfactant containing an anti-foaming agent. It improves wetting of foliage and enhances the effectiveness of spray applications. It will not cause excessive foaming in the spray tank nor corrode equipment. ULTRA 90-NF may be used on agricultural, aquatic, forestry, turf and ornamental, industrial, structural and non-cropland sites. NOT FOR AQUATIC USE IN WASHINGTON.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with ULTRA 90-NF. Use according to the most restrictive label directions for each product in any tank mix.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add the product at a rate which exceeds 5% of the finished spray volume.

### Limitations, Restrictions, and Exceptions

### AIR OR GROUND

Use 0.5-4 pints per 100 gallons of finished spray solution. For improved efficacy, use at least 0.5 pint per acre when finished spray volume is less than 20 gallons per acre.
