

## SOIL APPLICATION

### General Information

#### General Information

BRANDT SMART QUATRO is specifically formulated for foliar delivery of manganese, zinc, boron and molybdenum for all crops.

#### Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application. Not compatible with phosphate (P2O5) solutions.

### Limitations, Restrictions, and Exceptions

#### Soil Application

Use 1-3 quarts in a minimum of 10 gallons of water per acre. Not for use with starter fertilizer.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.
