

VEGETABLE CROPS

General Information

DESCRIPTION

CALCIUM CHELATE is designed to supply foliar calcium efficiently to vegetable crops, field crops, row crops, deciduous fruit and nut trees, grapes and citrus. Foliar fertilization is intended as a supplement to a regular fertilizer program and may not by itself provide all the nutrients normally required by agricultural crops or other intended plants.

Limitations, Restrictions, and Exceptions

Vegetable Crops: Apply 1-2 pints per acre at the appropriate stages of growth and development.
