

FOLIAR APPLICATION - TREES AND VINES

General Information

DESCRIPTION

F POWER is a commercial fertilizer which also contains Fulvic acid derived from Leonardite. Leonardite results from the decomposition and compression of organic plant materials. Fulvic acid may aid in uptake of micro nutrients.

Limitations, Restrictions, and Exceptions

FOLIAR APPLICATION

Mix 1-2 pints of F-Power together with recommended fertilizer per sprayed acre. Repeat this application every 2-4 weeks for best results. F-Power is even compatible with phosphoric, calcium, and potassium mixes. Trees and Vines: Three applications are recommended: 1. At budding/flowering stage. 2. Clearing. 3. Fruit enlargement. Dose: 1-2 pints per acre per treatment.
